HOW TO USE INDEX

In the master index on the next two pages, articles are listed alphabetically by title and are numbered consecutively. The cross-index by author or subject on this page refers to the number of the article in the master index.

Example: Afghanistan 2

No. 2 in the Master Index will give the title, page and month for an article on the subject of Afghanistan. Thus, No. 2 on the Master Index shows "Afghanistan—Why We Should Care," page 17, July.
